

Important Notes:

- This submission is mostly for **attendance compensation**. This will not improve your evaluation marks for the missed labs very much.
- Compensation marks will be awarded based on the quality of your lab reports.
- *If you wish to improve your actual evaluation marks, you should consider completing the optional project.*

Lab Report Requirements

For each missed lab, your report must include the following:

1. Valid Reason for Missing the Lab
 - At the beginning of your report, clearly state your valid reason for missing that lab session.
 - E.g. “*Not being able to wake up in the morning*” is not a valid reason.
2. Theory Behind the Problem
 - Explain the theoretical background of the problem being solved.
3. Code Implementation
 - Provide the complete code you wrote to solve the exercise.
 - Ensure that your code is well-commented.
4. Technique Used to Solve the Problem
 - Describe the specific technique or approach you used to solve the problem.
5. Discussion on Technique Choice
 - Justify why you chose this particular technique to solve the problem.

Submission Guidelines

- Submit each lab report as a separate PDF document named in the format: FullStudentID_LabX.pdf (e.g., 170042000_Lab1.pdf).
